

Puffin Mask

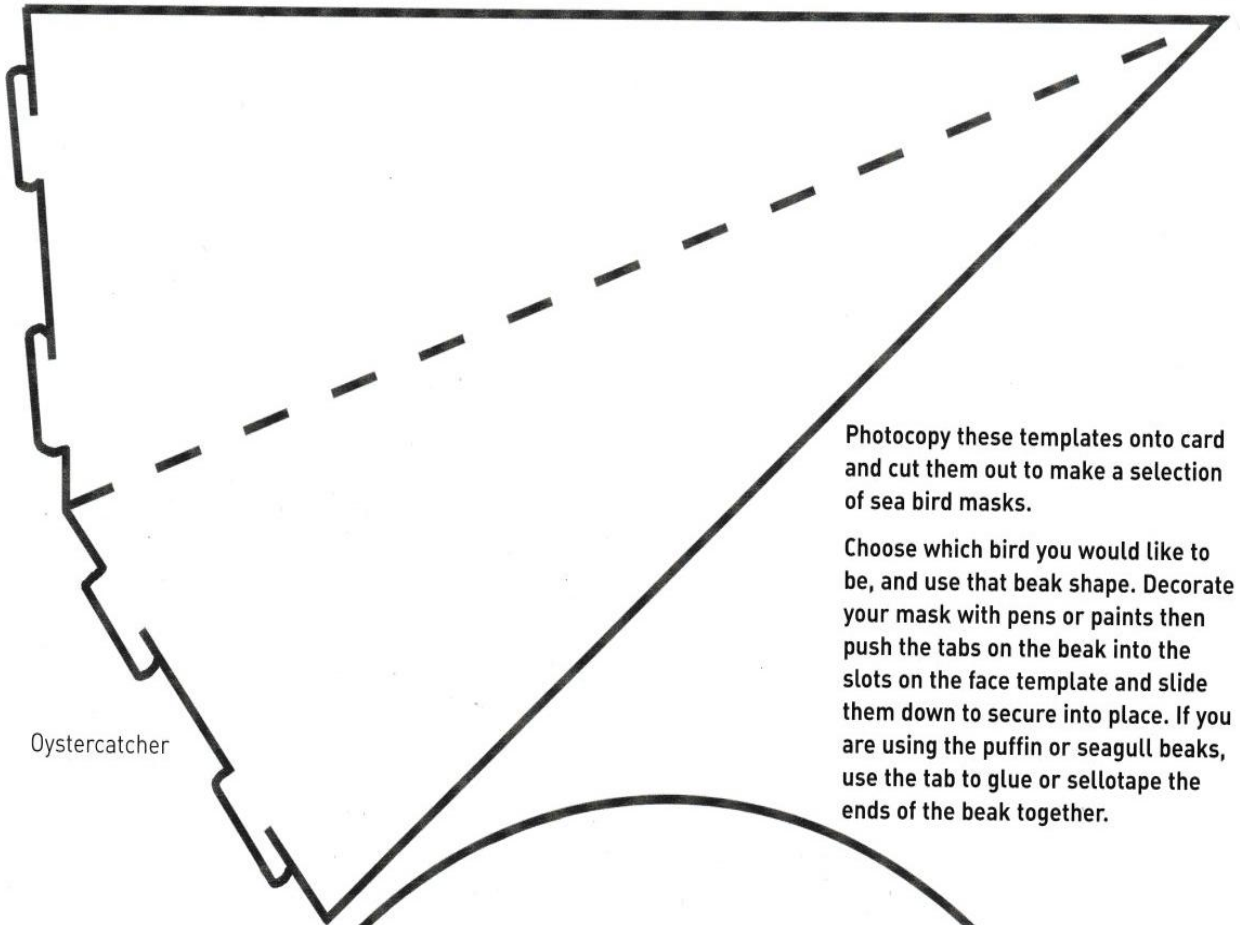

Cut along black lines,
fold along dotted lines.

Seagull

Puffin

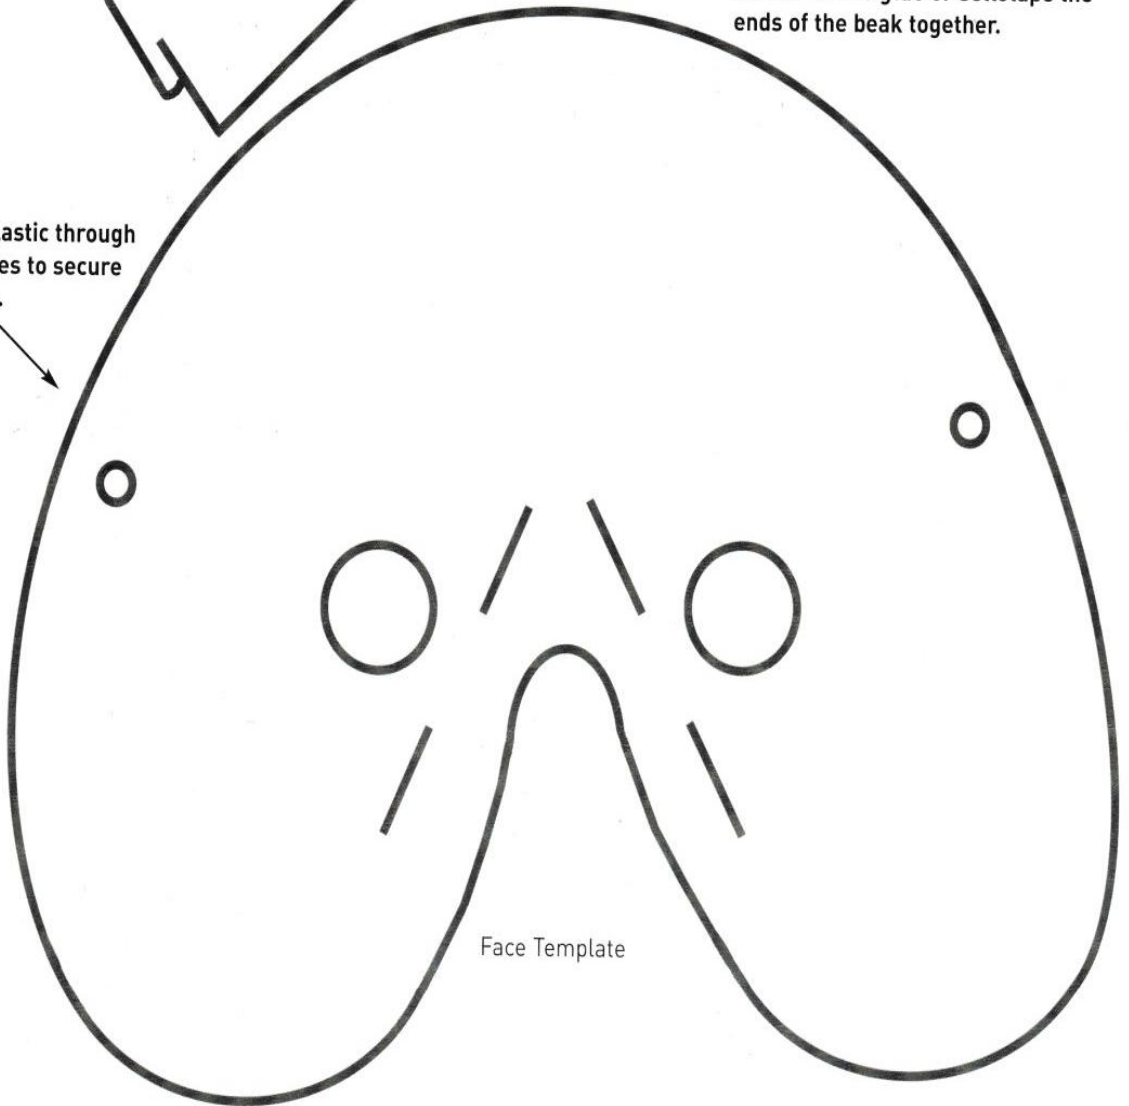

Oystercatcher

Photocopy these templates onto card and cut them out to make a selection of sea bird masks.

Choose which bird you would like to be, and use that beak shape. Decorate your mask with pens or paints then push the tabs on the beak into the slots on the face template and slide them down to secure into place. If you are using the puffin or seagull beaks, use the tab to glue or sellotape the ends of the beak together.

Thread elastic through these holes to secure the mask.
